Das Potential von Advance Care Planning (ACP; deutsch: Behandlung im Voraus Planen) für eine patientenzentrierte Gesundheitsversorgung ist in Deutschland erst in den letzten Jahren gewürdigt worden. Zudem findet das Konzept durch seine Aufnahme in das Hospiz- und Palliativgesetz als "gesundheitliche Versorgungsplanung" und damit in die Regelversorgung gesetzlich versicherter Einrichtungsbewohner zunehmende Beachtung. ACP ist eine Anregung zur Auseinandersetzung mit Fragen des eigenen Lebens und Sterbens und ermöglicht insbesondere, lebensverlängernde Behandlung unter definierten Bedingungen im Voraus wirksam zu begrenzen. Dabei stellen sich eine Reihe ethischer und rechtlicher Fragen. Die Herausgeber befassen sich seit Jahrzehnten mit Fragen ethisch und rechtlich angemessener medizinischer Behandlung an den Grenzen des Lebens. Für diesen Band haben sie ausgewiesene Experten der Rechtswissenschaften, der Medizin und der Theologischen Ethik um eine Auseinandersetzung mit ACP gebeten. Mit Beiträgen von Michael Coors, Stephan Ernst, Monika Führer, Martin Hein, Paul Hüster, Wolfram Höfling, Kathrin Knochel, Volker Lipp, Andreas Lob-Hüdepohl, Georg Marckmann, Stefan Meier, Thomas Otten, Stephan Rixen, Jochen Sautermeister, Jürgen in der Schmitt, Josef Schuster In den letzten zehn Jahren hat sich die Debatte zu Advance Care Planning (ACP) in Deutschland rasant entwickelt. Ein zunächst unbekanntes Sozialinstrument reifte innerhalb von wenigen Jahren zu einem gesundheitspolitischen Thema heran. Im Palliativ- und Hospizgesetz ist der Begriff "gesundheitliche Vorausplanung" seit 2015 verankert. Das Ziel dieser Untersuchung ist es, herauszufinden, wer am Diskurs zu ACP beteiligt ist und wer ihn beherrscht. Dafür beleuchtet die Autorin Argumente und Ideologien, die sowohl die BefürworterInnen als auch die KritikerInnen nutzen. "Advance Care Planning" (ACP, gesundheitliche Vorausplanung) zielt auf eine konsequent am vorausverfügten Patientenwillen orientierte Behandlung für den Fall, dass der Betroffene sich nicht mehr selbst äußern kann. Realisiert wird diese grundlegend neue Herangehensweise durch die Etablierung eines professionell begleiteten Kommunikationsprozesses, der Menschen bei der Entwicklung ihrer individuellen Patientenverfügung unterstützt. Hinzu kommt ein diesbezüglicher Wandel im Gesundheitssystem, in dessen Folge ein solches qualifiziertes Beratungsangebot insbesondere älteren und chronisch kranken Menschen aktiv angeboten wird. Darüber hinaus müssen die angemessene Dokumentation, die Aktualisierung und zuverlässige Beachtung des vorausverfügten Patientenwillens gewährleistet werden. Ausgehend von einer Analyse der Defizite des bisherigen Umgangs mit Patientenverfügungen erörtert eine internationale Autorengruppe die Grundlagen von ACP, stellt etablierte ACP-Projekte vor und erläutert die politischen und ethischen Herausforderungen. The how-to guide for your

career In his previous book, *Lose the Resume, Land the Job*, author Gary Burnison exposed the myths and the ineffective thinking around how to land the job you really want. Now, in *Advance*, he takes readers through the next stage—advancing in their careers. *Advance* is extremely timely and topical in today's do-it-yourself career development world. Average job tenure has fallen to about four years on average and often only one or two years for younger professionals. These "career nomads" simply aren't around long enough to access career development from their employers. On the other end of the workplace spectrum, many employees find themselves stuck in one job without a promotion, without any raise to speak of, and with no opportunities to learn and grow. In *Advance*, Burnison lays out a mosaic of "how-to" advice that applies every day and at every level—the skills and behaviors that help people navigate their careers and stand out among the crowd. He takes on a "Top 20" of career must-haves: managing for the first time, engaging in the "money conversation" with your boss, dealing with difficult bosses (without quitting), coping with coworkers (without losing your mind), making presentations (that don't put people to sleep), mastering digital communication (and avoiding emails that will get you fired), thinking globally (without leaving your office), taking an overseas assignment, meeting senior leaders for the first time (without putting your foot in your mouth), navigating political waters (without sinking your career), reading and fitting in with the culture, and more.
