Excerpt from *Virginia of Virginia: A Story* Roden was not only a new arrival in Virginia, but in America, and the impression made upon him had not, to speak very moderately, been favorable. Coming from Washington, some one in the train had asked him if it did not remind him of England. He had answered with some curtness that it did not, demanding at the same time why he should be. Particularly reminded of England by the state of the weather in Virginia. His interlocutor had replied with the never-failing urbanity of the Virginian farmer, that anybody could tell he was an Englisher by th' way he talked, and them loose pants. At the moment he first saw the figure alluded to, the owner of the British accent and the loose pants was shivering in spite of the top-coat turned up about his ears and the soft hat pulled down to meet it. A social event becomes a personal challenge for two faculty members and their wives at a small New England college as their inner fears

and desires are exposed. A century ago, legendary photographer Edward Curtis set about to capture the traditional world of Native Americans before that world vanished. Now, Ben Greenberg has done the same for the natural areas of Virginia. Devoted to preserving and celebrating Virginia's diverse but sometimes threatened natural richness, Greenberg has spent years creating a collection of more than one hundred stunning images that range from the Commonwealth's most well-known to its rarely explored landscapes. By framing all of these photographs—whether of the Shenandoah Valley in full fall blaze or of Tidewater piers in the afterglow of sunset—as panoramas, Greenberg heightens the drama and immediacy of the moment, forging an enduring composite portrait that captures Virginia's natural heritage and at the same time reminds us of its fragility. Natural Virginia divides the state into three regions: the Tidewater, Piedmont, and the Western mountains and valleys. The images in each, whether of a great blue heron emerging from river mists or of an almost leafless autumnal tree on Skyline Drive, convey a sense of grandeur while simultaneously inviting the viewer in to the intimacy of the settings, as though one might be able to smell the musk of the salt flats or to feel the brush of the fall wind. The photographs highlight the wide-ranging diversity of the Commonwealth's national and state parks, wildlife refuges and management areas, their rivers, lakes, mountains, and wild creatures. Deane Dozier's introductory essays to each region offer further insight into the geography and geology of Virginia. Virginia's back roads and rural areas are dotted with traces of once-thriving communities. General stores, train depots, schools, churches, banks, and post offices provide intriguing details of a way of life now gone. The buildings may be empty or repurposed today, the existing community may be struggling to survive or rebuilding itself in a new and different way, but the story behind each community's original development is an interesting and important footnote to the development of Virginia and the United States. *Lost Communities of Virginia* documents thirty small communities from throughout the Commonwealth that have lost their original industry, transportation mode, or way of life. Using contemporary photographs, historical information, maps, and excerpts of interviews with longtime residents of these communities, the book documents the present conditions, recalls past boom times, and explains the role of each community in regional settlement. "The second volume of Virginia Woolf's *Collected Letters* covers the decade of her thirties, during which she married, published three novels, lived through World War I and two periods of mental

illness, and co-founded the Hogarth Press. Joining old friends such as Lytton Strachey and Maynard Keynes, a new Bloomsbury generation makes its appearance in Virginia's life and letters - T.S. Eliot, Katherine Mansfield, Duncan Grant - but the two people who share centre stage with Virginia are her husband Leonard and her sister Vanessa. Her devotion to Leonard is one of the most touching aspects of this volume, and her closeness to Vanessa reaffirmed by their almost daily correspondence."--Google Books. This book, a product of collaboration and cooperation between two non-Masonic historians and the Grand Lodge of Virginia, is an objective, comprehensive study of the history of Freemasonry in the state of Virginia. The authors relate a fascinating chronicle of Freemasonry, from its British origins two hundred years ago to today. Along the way, they describe the colorful figures who populate this history and debunk many myths about Freemasonry. Each entry in this volume gives the name of the bride and groom, the date of the bond, and the name of the bondsman, who was often a relative of the bride. A brides' index follows at the back of the volume. All told, this work identifies the 3,500 oldest Loudoun County marriage bonds known to exist. "Mr and Mrs. John Houston, the progenitors of the Houston family in Virginia, came from northern Ireland to America, in 1735. Mrs. Houston brought with her children a son, John Houston, nine years old. The Houstons came into America through Pennsylvania, and then on into Virginia, and settled in what is now Rockbridge County, Virginia ... "--p. 1. Also includes "The Blind Preacher Family Chart" a pedigree chart of the family of James Waddell, D. D., [chart in possession of the Rockbridge Historical Society] who was born in 1739 and died in 1805. He was the husband of Mary Gordon Waddell who was born in 1752 and died in 1813. Their descendant Mary Eliza Waddell "married Rev. Wm. W. Houston."--P. 50. Among family members born in Rockbridge County, Virginia is also included Samuel Houston (1793 - 1863) who later " ... became General Samuel Houston and Governor of Texas."--P. 60. Descendants and relatives lived in Virginia, Ohio, New Jersey, New York, North Carolina, Texas and elsewhere. Because of the number of incidents and the magnitude of their consequences, the Virginia Department of transportation made a concerted effort to ensure that incident management became a top priority and spearheaded an effort to start a statewide incident management program. This report documents that program. This program was concerned with the coordination of programs involved in preventing incidents and those concerned with detecting, responding to, and clearing

incidents after they occur. Formal incident management programs in three large urban areas in addition to other efforts by the Virginia Department of Transportation, the Virginia State Police, and Fairfax County are summarized. The documentation contained herein can be used to aid other states in developing incident management programs. With the increasing emphasis on consumers' rights and developments in federal debtor-creditor law, *Enforcement of Judgments and Liens in Virginia* helps the practicing lawyer solve frequently-occurring collection problems. The eBook versions of this title feature links to Lexis Advance for further legal research options.

Religion, Secularism, and the Spiritual Paths of Virginia Woolf offers an expansive interdisciplinary study of spirituality in Virginia Woolf's writing, drawing on theology, psychology, geography, history, gender and sexuality studies, and other critical fields. The essays in this collection interrogate conventional approaches to the spiritual, and to Woolf's work, while contributing to a larger critical reappraisal of modernism, religion, and secularism. While Woolf's atheism and her sharp criticism of religion have become critical commonplaces, her sometimes withering critique of religion conflicts with what might well be called a religious sensibility in her work. The essays collected here take up a challenge posed by Woolf herself: how to understand her persistent use of religious language, her representation of deeply mysterious human experiences, and her recurrent questions about life's meaning in light of her disparaging attitude toward religion. These essays argue that Woolf's writing reframes and reclaims the spiritual in alternate forms; she strives to find new language for those numinous experiences that remain after the death of God has been pronounced.

** 75 trails and 70 scenic overlooks in Virginia's Shenandoah National Park * Guidebook* includes maps and hiking descriptions. Shenandoah National Park lies along the crest of the Blue Ridge Mountains of northeast Virginia, encompassing 196,000 acres, including 80,000 acres of federally designated wilderness. The trails in this thorough guidebook will take hikers along the peaks of the Blue Ridge, past waterfalls, and down into lush canyons. In addition to the detailed trail descriptions, you'll find information about park history, plants and animals, geology, and human history, plus some highlights of the 105-mile Skyline Drive. " An essential resource for scholars, students, and all lovers of the Mountaineer State. From bloody skirmishes with Indians on the early frontier to the Logan County mine war, the story of West Virginia is punctuated with episodes as colorful and rugged as the mountains that dominate its landscape.

In this first modern comprehensive history, Otis Rice and Stephen Brown balance these episodes of mountaineer individualism against the complexities of industrial development and the growth of social institutions, analyzing the events and personalities that have shaped the state. To create this history, the authors weave together many strands from the past and present. Included among these are geological and geographical features; the prehistoric inhabitants; exploration and settlement; relations with the Indians; the land systems and patterns of ownership; the Civil War and the formation of the state from the western counties of Virginia; the legacy of Reconstruction; politics and government; industrial development; labor problems and advances; and cultural aspects such as folkways, education, religion, and national and ethnic influences. For this second edition, the authors have added a new chapter, bringing the original material up to date and carrying the West Virginia story through the presidential election of 1992. Otis K. Rice is professor emeritus of history and Stephen W. Brown is professor of history at West Virginia Institute of Technology. Edward McGuire was born at Ardfert near Tralee, County Kerry, in 1720. He immigrated to America, landing at Philadelphia and went to Virginia where he purchased a grant of 346 acres on the Wappacomo in 1747. He married 1) Susannah Wheeler of Prince George's County, and 2) Millicent Dobie, daughter of Samuel Dobie. He had eight children. He died in 1806. Virginia has been a national leader in historic preservation for many years. One of the many areas where this is reflected is in the use of historic tax credits in the Commonwealth. As of FY 2012, the most recent year for which such data are available, Virginia ranks third in the nation in total dollar volume of estimated qualified rehabilitation expenditures at project completion, behind only Massachusetts and Missouri. Preservation Virginia retained the VCU Center for Urban and Regional Development to conduct an analysis of the economic impacts of historic rehabilitation, financed in part through the Virginia Historic Rehabilitation Tax Credit Program and the Federal Historic Tax Credit Program, from 1997 to 2013. This analysis builds upon reports and updates completed by VCU for the Virginia Department of Historic Resources in 2007, 2010 and 2012. Like those earlier reports, this study documents the significant economic returns that Virginia realizes from preserving and re-using historic properties. Similarly, a study published in 2012 by Virginia's Joint Legislative Audit and Review Commission concluded that unlike some tax preference programs that do not achieve their stated goals, Virginia's Historic Rehabilitation Tax Credit

Program effectively achieves the goal of promoting the rehabilitation of historic structures. Although this report is able to document only the easily quantifiable returns of economic activity and tax revenues, historic preservation brings many additional benefits to society. These include aesthetic and psychological benefits that help citizens understand their heritage and which improve the attractiveness of places to residents, businesses and tourists. Ultimately, these impacts strengthen the economy and augment the tax base as well. Tax credit usage in Virginia has occurred more often in urban areas, such as Richmond, Hampton Roads, Northern Virginia and Roanoke, than in rural areas. This is understandable, since urban areas have more buildings, as well as a larger percentage of the stock of historic buildings. However, tax credit-financed projects have been completed in most communities throughout the Commonwealth, reflecting both the utility and perhaps the future expansion potential of this program. (See Map ES 1, below.) From 2000 (when the Virginia Historic Tax Credit was raised to 25% of qualified rehabilitation expenditures) through 2011 (the most recent year for which all Virginia tax credit projects have been completed and certified), an average of 174 projects have been certified each year. The number of rehabilitation projects increased steadily from 1997 to 2005, when it reached its peak of 235 projects certified per year. The Great Recession of 2008-09, which had a very significant effect on the construction industry overall, caused a moderate decline in historic rehabilitation activity. Heinemann skillfully presents the dramatic opposition between the Byrd organization and the proponents of Roosevelt's New Deal. He explains why Virginia voters paradoxically endorsed both at the polls. This study is based on extensive research in the records of federal agencies, Virginia newspapers, and letters collections of prominent state politicians. It includes a fascinating survey of Virginians who lived during the Depression. The first substantial examination of Virginia during the thirties, *Depression and New Deal in Virginia: The Enduring Dominion* contributes to our understanding of an important period in our national history. The fourth book in the *Virginia at War* series casts a special light on vital home front matters in Virginia during 1864. Following a year in which only one major battle was fought on Virginia soil, 1864 brought military campaigning to the Old Dominion. For the first time during the Civil War, the majority of Virginia's forces fought inside the state's borders. Yet soldiers were a distinct minority among the Virginians affected by the war. In *Virginia at War, 1864*, scholars explore various aspects of the civilian

experience in Virginia including transportation and communication, wartime literature, politics and the press, higher education, patriotic celebrations, and early efforts at reconstruction in Union-occupied Virginia. The volume focuses on the effects of war on the civilian infrastructure as well as efforts to maintain the Confederacy. As in previous volumes, the book concludes with an edited and annotated excerpt of the Judith Brockenbrough McGuire diary. Home to America's first permanent English settlement, Virginia occupies a unique and important place in U.S. history. It is also a great place to live! From local cuisine to sporting events, readers will see just what Virginia has to offer as they hike through its natural landscapes and visit its historic towns. They will also learn about Virginia's government, traditions, economy, and more. In *The Lees of Virginia*, Paul Nagel chronicles seven generations of Lees, from the family founder Richard to General Robert E. Lee, covering over two hundred years of American history. We meet Thomas Lee, who dreamed of America as a continental empire. His daughter was Hannah Lee Corbin, a non-conformist in lifestyle and religion, while his son, Richard Henry Lee, was a tempestuous figure who wore black silk over a disfigured hand when he made the motion in Congress for Independence. Another of Thomas' sons, Arthur Lee, created a political storm by his accusations against Benjamin Franklin. Arthur's cousin was Light-Horse Harry Lee, a controversial cavalry officer in the Revolutionary War, whose wild real estate speculation led to imprisonment for debt and finally self-exile in the Caribbean. One of Harry's sons, Henry Lee, further disgraced the family by

seducing his sister-in-law and frittering away Stratford, the Lees' ancestral home. Another son, however, became the family's redeeming figure--Robert E. Lee, a brilliant tactician who is still revered for his lofty character and military success. In these and numerous other portraits, Nagel discloses how, from 1640 to 1870, a family spirit united the Lees, making them a force in Virginian and American affairs. Paul Nagel is a leading chronicler of families prominent in our history. His *Descent from Glory*, a masterful narrative account of four generations of Adamses, was hailed by *The New Yorker* as "intelligent, tactful, and spiritually generous," and Pulitzer Prize-winning historian W.A. Swanberg, in the *Chicago Sun-Times*, called it "a magnificent embarrassment of biographical riches." Now, in *The Lees of Virginia*, Nagel brings his skills to bear on another major American family, taking readers inside the great estates of the Old Dominion and the turbulent lives of the Lee men and women. The Byrd Machine ran Virginia politics for more than half a century. This political organization rose to power during the era of Jim Crow, wielding power and influence over everything from who got the nod to be governor to how the state maintained racial segregation. Inheriting its tactics from two previous political machines, the Byrd organization operated with a pathological hatred of debt spending, crushing the power of labor unions and forcing its will on Black schoolchildren protesting separate and unequal facilities. The nadir of its era was massive resistance, a move to close public schools rather than integrate them. Journalist and author Michael Lee Pope details the rise and fall of the last great political machine in Virginia. This stunning collaboration between the noted garden writer Nancy Ross Hugo and the photographer Robert Llewellyn showcases the fruits of an effort begun in 2004 to research, locate, and photograph Virginia's most remarkable trees. Four years later, more than one thousand trees had been officially nominated to the project and many others suggested for possible inclusion. The results, presented in this elegant, four-color volume, are astounding. Hugo and Kirwan, the project coordinators, have selected a sample of trees and "tree places" that illustrate the enormous variety, startling beauty, and fascinating history of Virginia's trees. Here you will see, through Llewellyn's incomparable lens, not only some of Virginia's largest trees, including a newly discovered national champion overcup oak in Isle of Wight County, but also some of the state's oldest, including baldcypress trees over 800 years old in Southampton County and red cedars over 450 years old in Giles. You will find unique trees like a willow oak in which a tricycle is embedded, fine specimens

like the massive American beech in front of Sleepy Hollow Methodist Church in Falls Church, and outrageously shaped trees, like the water tupelos in the Cypress Bridge area of Southampton County. You will find trees associated with famous people and events as well as trees associated with ordinary people in extraordinary ways. Perhaps best of all, you will learn about communities that have gone to great lengths to protect their trees and about places where the public can visit some of the best trees and "treescapes" in the state.

Remarkable Trees of Virginia is a celebration of trees, but it doesn't dodge hard issues. In a section on urban forests, the authors describe the major problems facing trees in urban areas and point out strategies urban foresters are using to solve them. They describe the ecological services trees provide and issue a call for action both to protect trees in their existing habitats and to find more places where trees can "grow large and long." Hugo, Kirwan, and Llewellyn present a treasury of Virginia's trees that is, indeed, remarkable.
