Understanding Medical Law Oct 02 2020 This book gives the reader a flavour of the main issues arising in medical law, including the problems of consent to treatment, medical negligence, abortion and whether euthanasia should be legalized.

Understanding Law Oct 26 2022 This introduction to law presents a contextual overview of the English legal system while, at the same time, providing the groundwork for a critical understanding of legal institutions, processes and materials. *Understanding Law* is not simply an exposition of the English legal system. It also places the study of law within a broader framework of inquiry focusing on the evaluation and explanation of legal decision-making at all levels. This new edition incorporates: . A fully revised and updated chapter on the criminal justice system, taking account of the Auld Review and the government's latest CJS proposals. An expanded chapter on the civil justice system after Woolf. The impact of the Human Rights Act (including Lambert and Kansal on precedent practice in the House of Lords). A completely new section on the globalisation of law This book sets a distinctive manifesto for legal education that is in line with the ACLEC emphasis on understanding (rather than passive role learning) as the key to the initial stage of legal education. It has proven to be a valuable introductory text for new law students

Understanding Public Law Oct 14 2021 The British Constitution used to be the envy of the world. Now there is hardly any element of it which has not come under attack. In exploring why this has happened, this book explains how the British Constitution works today.

Understanding Law and Society Aug 24 2022 This textbook on the sociology of law is

organised according to the theoretical traditions of sociology, and oriented towards providing an accessible, but sophisticated, introduction to, and overview of, the central themes, problems and debates in this field. The book employs an international range of examples - including the state, minority rights, terrorism, family violence, the legal profession, pornography, mediation, religious tolerance, and euthanasia - in order to distinguish a sociological approach to law from 'black-letter', jurisprudential and empirical policy-oriented traditions. Beginning with 'classical', 'consensus' and 'critical' sociological approaches, the book covers the full range of contemporary perspectives, including the new institutionalism, feminism, the interpretive tradition, postmodernism, legal pluralism and globalisation. It then concludes with a consideration of current theoretical issues, as well as a reflection upon the importance of a sociological approach to law. *Understanding Law and Society* provides a clear, but critical, discussion of the relevant literature, along with study questions and guides to further reading. It is designed to support courses in law and society and in the sociology of law, but will also be of value to others with interests in these areas.

Using the Law in Social Work Jul 31 2020 Familiarity with law, legislation and legal processes is fundamental to sound social work practice. This book helps social work students gain this foothold in understanding law as it applies to social work practice.

Understanding Administrative Law Jul 11 2021 This *Understanding* treatise is designed to help the reader grasp the fundamental concepts of administrative law. *Understanding Administrative Law* concentrates on the process of administrative decision making but also deals with the substantive law of agencies when

appropriate. As students progress through the course and later enter practice, they will find that substance and procedure become more and more intertwined and, in many instances, become almost inextricable. An awareness that there is no bright line between substance and procedure, particularly in the context of an administrative agency, is especially helpful to a thorough understanding of the subject. A good deal of the material in this book consists of recommendations and processes to identify administrative problems and mechanisms for organizing a reader's thinking when the problem is identified. *Understanding Administrative Law* highlights the manner in which a client's problem moves through the typical agency and the manner in which a lawyer copes with the various problems and issues encountered in representing clients before administrative agencies. In addition, this book contains a significant amount of material on trends in administrative law such as deregulation and regulatory reform. The Sixth Edition includes comprehensive references to recent cases and law review articles for readers who wish additional depth in any of the topics covered. The eBook versions of this title feature links to Lexis Advance for further legal research options.

Understanding International Law Feb 06 2021 This clearly written *Understanding* treatise is designed to explain what international law is, why it exists, and the basic subjects it covers. The law of treaties is given particular attention, chiefly because of the increasing importance of the treaty in international life. The number of treaties has mushroomed since the Second World War and many of these agreements include over 100 states as parties. Because of their number and the breadth of their coverage, treaties are thus the main form of international legislation. But since they are also contractual in character, and since many multilateral treaties allow states to place conditions on their acceptance of them, the law governing treaties is necessarily more complex than if they were the exact equivalent of national legislation. *Understanding International Law* also provides introductory coverage of topics of current relevance, such as terrorism, international criminal law, use and applicability of international law in United States courts, and

the law governing the use of military force.

The Law Book Sep 01 2020 Learn about the most important legal milestones in history in *The Law Book*. Part of the fascinating Big Ideas series, this book tackles tricky topics and themes in a simple and easy to follow format. Learn about Law in this overview guide to the subject, great for novices looking to find out more and experts wishing to refresh their knowledge alike! *The Law Book* brings a fresh and vibrant take on the topic through eye-catching graphics and diagrams to immerse yourself in. This captivating book will broaden your understanding of Law, with:

- More than 90 ground-breaking legal milestones
- Packed with facts, charts, timelines and graphs to help explain core concepts
- A visual approach to big subjects with striking illustrations and graphics throughout

The series uses striking graphics along with engaging writing, making big topics easy to understand.

Understanding Law Sep 25 2022 The purpose of this book is to help students to understand the sources of law and how to use them. It provides

a rich collection of legal source material, together with a wide range of exercises and activities, carefully designed to develop the skills of analysis and critical evaluation needed for success in examinations. *Understanding Law* is written with the needs of A-level and undergraduate law students particularly in mind, but will be invaluable for anybody embarking upon the study of law for the first time. *provides first-hand experience for students in understanding and analysing legal materials and documents*helps students to develop the written and oral skills required to be successful in examinations*contains source material on the English Legal System, Criminal Law, Contract Law and Tort Law, and a wide range of cases, statutes, Parliamentary debates, White Papers and other documents*carefully designed exercises and activities to develop skills of analysis, evaluation and constructing arguments Bobby Vanstone is Chief Examiner for A-level law for the Associated Examining Board, and she is an experienced law teacher. Companion textbooks from Longman: English Legal System (s

[Ancient Law and Modern Understanding](#) Mar 19 2022 In *Ancient Law and Modern Understanding* Alan Watson proposes that ancient law is relevant and important for understanding history, theology, sociology, and literature. "Law, though technical," he writes, "is not remote from scholarship on other matters, and law is a central element in society." From Homeric Greece to present-day Armenia, Watson examines law's influence. Without a sensitivity to technical legal language, scholars of literature or history miss much: the use of puns in Plautus, Sulla's claim that Julius Caesar was descended from a slave, the relationship between the Synoptic Gospels. Legal history is an essential tool for understanding society, Watson argues, but it must be applied with knowledge of how law moves from one society to the next, legal reliance on authority, juristic concern with apparent trivia, and the impact on legal growth.

GUIDE TO UNDERSTANDING THE LAW OF CONTRA Mar 27 2020

Understanding Administrative Law in the Common Law World Nov 15 2021 Around the common law world, the law of judicial review of administrative action has changed dramatically

in recent decades, accelerating a centuries-long process of incremental evolution. This book offers a fresh framework for understanding the core features of contemporary administrative law. Through comparative analysis of case law from Australia, Canada, England, Ireland, and New Zealand, the author develops an interpretive approach by reference to four values: individual self-realisation, good administration, electoral legitimacy, and decisional autonomy. The interaction of this plurality of values explains the structure of the vast field of judicial review of administrative action: institutional structures, procedural fairness, substantive review, remedies, restrictions on remedies, and the scope of judicial review. Addressing this wide array of subjects in detail, the book demonstrates how a pluralist approach, with the values being employed in a complementary and balanced fashion, can enhance our understanding of administrative law. Furthermore, such an approach can guide the future development of the law of judicial review of administrative action, a point illustrated by a careful analysis of the unsettled doctrinal area of legitimate expectation. The book closes by arguing that the author's values-based, pluralist framework supports the legitimacy of contemporary administrative law which, although sometimes called into question, facilitates the flourishing of individuals, of public administration, and of the liberal democratic system.

The Cannabis Business Jul 23 2022 "The first to provide a professional legal overview of the American cannabis industry, *The Cannabis Business* provides actionable guidance on legal and business issues faced by cannabis companies today. A global, largely illicit market worth around \$150 billion is slowly transitioning into a legal, regulated industry, but it is a challenging one, made even more difficult by the complexities and nuances of the law. Entrepreneurs, investors, some 300,000 employees, and most Americans who support legalization need a reliable guide to understand this new industry. This is that book, written by partners at one of America's top cannabis law firms that has been at the cutting edge of marijuana and hemp law and policy since the inception of the regulated cannabis industry.

The book comprises three parts: an introduction to the national legal landscape and the federal legal risks associated with cannabis businesses; an overview of the many legal issues faced by cannabis companies; and an introduction to the nuts and bolts of getting a cannabis deal done. Professionals and upper-level students with an interest in cannabis business or policy, from lawyers and entrepreneurs and investors to farmers, will find this book a useful and empowering resource, written by those at the forefront of the industry"--

Environmental Law from the Policy Perspective

Apr 27 2020 Most books on environment law focus on the law first, and then look at how environmental problems are dealt with in relation to the law. Taking a fresh approach, *Environmental Law from the Policy Perspective: Understanding How Legal Frameworks Influence Environmental Problem Solving* examines environmental problems first, followed by an examination of legal frameworks and how they impact environmental issues. This approach provides a clearer understanding of the relationship between the law and environment by examining environmental issues from an applied perspective. By first focusing on environmental problems without constraining the analysis to a particular legal framework, this book fosters a more holistic discussion of environmental issues that include scientific, social, economic, and political contexts. It examines how laws affect the adaptation of policy, how policy is legitimized into statutory law, and how the law is impacted in practice. The text then underscores how interpretation of the law affects its application to different factual settings. Written by an environmental law expert who teaches environmental law to those not trained in legal theory, the book provides insights into the way environmental issues are "ingested" into a legal process. The author demystifies environmental law as a concept by applying it through the lens of environmental problem solving. Once you have a clear picture of the role legal frameworks have in managing environmental issues, you will be able to take a deeper policy-oriented approach to environmental problems.

[The Concept of Ideals in Legal Theory](#) May 29 2020 Talk about law often includes reference to

ideals of justice, equality or freedom. But what do we refer to when we speak about ideals in the context of law? This book explores the concept of ideals by combining an investigation of different theories of ideals with a discussion of the role of ideals in law. A comparison of the theories of Gustav Radbruch and Philip Selznick leads up to a pragmatist theory of legal ideals, which provides an interesting new position in the debate about values in law between legal positivists and natural law thinkers. Attention for law's central ideals enables us to understand law's autonomous character, while at the same time tracing its connection to societal values. Essential reading for anyone interested in the role of values or ideals in law.

The Unity of the Common Law Nov 22 2019

In this classic study, Alan Brudner investigates the basic structure of the common law of transactions. For decades, that structure has been the subject of intense debate between formalists, who say that transactional law is a private law for interacting parties, and functionalists, who say that it is a public law serving the collective ends of society. Against both camps, Brudner proposes a synthesis of formalism and functionalism in which private law is modified by a common good without being subservient to it. Drawing on Hegel's legal philosophy, the author exhibits this synthesis in each of transactional law's main divisions: property, contract, unjust enrichment, and tort. Each is a whole composed of private-law and public-law parts that complement each other, and the idea connecting the parts to each other is also latently present in each. Moreover, Brudner argues, a single narrative thread connects the divisions of transactional law to each other. Not a row of disconnected fields, transactional law is rather a story about the realization in law of the agent's claim to be a dignified end-master of its body, its acquisitions, and the shape of its life. Transactional law's divisions are stages in the progress toward that goal, each generating a potential developed by the next. Thus, contract law fulfils what is incompletely realized in property law, negligence law what is germinal in contract law, public insurance what is seminal in negligence law, and transactional law as a whole what is underdeveloped in public insurance. The end

point is the limit of what a transactional law can contribute to a life sufficient for dignity.

Reconfigured and expanded with a contribution by Jennifer Nadler, *The Unity of the Common Law* stands out among contemporary theories of private law in that it depicts private law as purposive without being instrumental and as autonomous without being empty formal.

Law 101 Jan 25 2020 There are no secret books : you can understand the law -- The supreme law of the land : constitutional law -- First freedoms : constitutional rights -- Your day in court : the litigation process -- Hot coffee and crashing cars: Tort Law -- A deal's a deal : contract law -- You are what you own : property law -- Crime doesn't pay : criminal law -- Protecting the innocent, freeing the guilty : criminal procedure

Understanding Hospitality Law Dec 04 2020 This comprehensive textbook introduces students to the many legal issues that hotel operations face daily.

Legal Research: How to Find and Understand the Law Nov 03 2020 Legal research comes in many forms and legal researchers have a myriad of faces. Recognising these two obvious facts, this book has been designed to be a flexible tool, of use to researchers of various levels of sophistication. If you are new to legal research, start with Chapter 2 and work your way through the book.

Understanding EU Law Jun 22 2022 This unique book is not an introduction to European Law. It provides an understanding of methodology, objectives and principles of EU law. It tries to explain its legal peculiarities, particularly with regard to the concept of internal market. It takes as starting point its liberal roots enshrined in the free movement, competition and autonomy provisions, but focuses equally on the development of countervailing principles about citizenship, adequate standards, and governance. It refers selectively to important secondary law, in particular directives, and to leading cases of the European Court of Justice. It is directed at all law scholars, students, practitioners, political scientists, in the old and new Member countries of the EU as well as third countries who want to understand what EU law is all about. It will allow the reader a first orientation, without suffocating him or her in too much detail.

Multilingual Law Dec 24 2019 This book introduces and explores the concept of multilingual law. It provides an overview as to what is 'multilingual law', the various types, what this means in theory and practice and how such systems function.

Understanding Law for Public Administration Nov 27 2022 What is law? -- Constitutional principles -- Due process, equal protection, and civil rights -- Freedom of speech and religion -- Freedom of information -- Property -- Contracts and companies -- Employment -- Torts -- Criminal law and procedure -- Administrative law and procedure -- Public ethics law -- Civil litigation and alternative dispute resolution -- Managing the lawyer relationship -- Educating yourself about the law.

The Legal Theory of Carl Schmitt Sep 20 2019 The Legal Theory of Carl Schmitt provides a detailed analysis of Schmitt's institutional theory of law, mainly developed in the books published between the end of the 1920s and the beginning of the 1930s. By reading Schmitt's overall work through the lens of his institutional turn, the authors offer a strikingly different interpretation of Schmitt's theory of politics, law and the relation between these two domains. The book argues that Schmitt's adherence to legal institutionalism was a key theoretical achievement, based on serious reconsideration of the main flaws of his own decisionist paradigm, in the light of the French and Italian institutional theories of law. In so doing, the authors elucidate how Schmitt was able to unravel many of the impasses that affected his previous conceptual framework. The authors also make comparisons between Schmitt and other leading legal theorists (H. Kelsen, M. Hauriou, S. Romano and C. Mortati) and explain why the current legal debate should take into serious account his legacy.

The Dynamics of Judicial Independence Aug 20 2019 This book examines the legal principle of judicial independence in comparative perspective with the goal of advancing a better understanding of the idea of an independent judiciary more generally. From an initial survey of judicial systems in different countries, it is clear that the understanding and practice of judicial independence take a variety of forms. Scholarly literature likewise provides a range of

views on what judicial independence means, with scholars often advocating a preferred conception of a model court for achieving 'true judicial independence' as part of a rule of law system. This book seeks to reorient the prevailing approach to the study of judicial independence by better understanding how judicial independence operates within domestic legal systems in its institutional and legal dimensions. It asks how and why different conceptualisations of judicial independence emerge over time by comparing detailed case studies of courts in two legally pluralistic states, which share inheritances of British rule and the common law. By tracing the development of judicial independence in the legal systems of Malaysia and Pakistan from the time of independence to the present, the book offers an insightful comparison of how judicial independence took shape and developed in these countries over time. From this comparison, it suggests a number of contextual factors that can be seen to play a role in the evolution of judicial independence. The study draws upon the significant divergence observed in the case studies to propose a refined understanding of the idea of an independent judiciary, termed the 'pragmatic and context-sensitive theory', which may be seen in contradistinction to a universal approach. While judicial independence responds to the core need of judges to be perceived as an impartial third party by constructing formal and informal constraints on the judge and relationships between judges and others, its meaning in a legal system is inevitably shaped by the judicial role along with other features at the domestic level. The book concludes that the adaptive and pragmatic qualities of judicial independence supply it with relevance and legitimacy within a domestic legal system.

Understanding the Law of Assignment Jun 10 2021 Explains how intangible assets such as contractual debts or equitable entitlements may be assigned under English law.

Carper's Understanding the Law Sep 13 2021 Learn the basics of business law and what it means to you with UNDERSTANDING THE LAW, Seventh Edition. Shakespeare and Common-law Understanding Aug 12 2021

Understanding Tort Law Jan 17 2022 This text offers an overview of the tort system for the non-lawyer or new law undergraduate. This new edition looks at topics such as the theories of tort law, accident compensation and its future, the rise of negligence, and issues in economic loss.

Subjects, Citizens and Law Apr 08 2021 This volume investigates how, where and when subjects and citizens come into being, assert themselves and exercise subjecthood or citizenship in the formation of modern India. It argues for the importance of understanding legal practice - how rights are performed in dispute and negotiation - from the parliament and courts to street corners and field sites. The essays in the book explore themes such as land law and rights, court procedure, freedom of speech, sex workers' mobilisation, refugee status, adivasi people and non-state actors, and bring together studies from across north India, spanning from early colonial to contemporary times. Representing scholarship in history, anthropology and political science that draws on wide-ranging field and archival research, the

volume will immensely benefit scholars, students and researchers of development, history, political science, sociology, anthropology, law and public policy.

The Journey of a Law Mar 07 2021 This next generation of U.S. citizens has the opportunity to shape the nation and the world. With knowledge of the foundations of citizenship and society, readers can make informed decisions and actively participate in their community and wider government. This book teaches readers about the civics concept of understanding government through engaging text and colorful photographs. In this book, readers will learn about the processes used to form laws. This nonfiction book is paired with the fiction book *I Learn About How Laws are Made* (ISBN: 9781508139430). The instructional guide on the inside front and back covers provides: Vocabulary, Background knowledge, Text-dependent questions, Whole class activities, and Independent activities.

Understanding the Australian Legal System Jan 05 2021 Understanding the Australian Legal System provides clear and accessible analysis of the Australian legal system's structures and language. Presented in an easy-to-read format that complements the book's emphasis on clearly explained basic principles, takes the intimidation out of a first encounter with the study of law.

Understanding International Criminal Law Apr 20 2022

[Learn the Law](#) Feb 24 2020

Understanding Common Law Legislation May 09 2021 Many countries use and apply the common law. The common law world largely operates through statutes enacted by a country's democratic legislature. These statutes are drafted and interpreted according to a uniform system of rules, presumptions, principles and canons evolved over centuries by common law judges. In this book, Francis Bennion distills forty years of his prolific writings on statute law and statutory interpretation to provide valuable guidance on statutory interpretation applicable to all common law jurisdictions.

[Understanding and Using Networks for Law Practice Development](#) Dec 16 2021

[Understanding Criminal Law](#) Feb 18 2022 This study seeks to present the key principles of criminal law in a comprehensive and readable

style. Concentrating on the more theoretical issues, the main focus is on the general principles of criminal liability.

[Understanding Law](#) Dec 28 2022 Presents an overview of the English legal system. This work provides the groundwork for an understanding of legal institutions, processes and materials, and places the study of law within a framework of inquiry focusing on the evaluation and explanation of legal decision making at various levels. It examines the civil justice system after Woolf

Understanding International Law May 21 2022 Understanding International Law presents a comprehensive, accessible introduction to the various aspects of international law while addressing its interrelationship with world politics. Presents well-organized, balanced coverage of all aspects of international law. Features an accompanying website with direct access to court cases and study and discussion questions. Visit the site at:

www.wiley.com/go/internationallaw Includes discussion of the efficacy of international law, a topic unique among international law texts. Offers discussion of other topics that most texts do not address, such as complete chapters on making the world safer, human rights, the environment, and the world economy

[Understanding Criminal Law](#) Jun 29 2020 Understanding Criminal Law clarifies a subject which students often find somewhat difficult and confusing. This difficulty stems partly from the rapid changes which criminal law undergoes, through frequent statutory amendments and judicial decisions, but more importantly from the sheer complexity of the subject matter. This book provides a clear and concise text for those studying traditional black-letter substantive criminal law. The author takes a logical and straightforward approach, specifically designed to enable the reader to quickly master the basic principles and ensure examination success. Emphasis is given to major case law, relevant statutory provisions and writings of academic commentators. In selected areas the book evaluates the law and suggests possible reforms; this evaluative aspect is intended to stimulate the reader to think more critically about the subject without engendering confusion about basic principles. Although designed primarily for

full-time undergraduate LLB students, the book should also prove useful for those studying criminal law on part-time courses, as well as those on Diploma in Law courses, and students

of A and AS Level Law. It is also ideal for the study of criminal law on modular courses and joint degrees.
