**Decolonizing Cultures in the Pacific** Jun 12 2021 In *Decolonizing Cultures in the Pacific*, Susan Y. Najita proposes that the traumatic history of contact and colonization has become a crucial means by which indigenous peoples of Oceania are reclaiming their cultures, languages, ways of knowing, and political independence. In particular, she examines how contemporary writers from Hawai'i, Samoa, and Aotearoa/New Zealand remember, re-tell, and deploy this violent history in their work. As Pacific peoples negotiate their paths towards sovereignty and chart their postcolonial futures, these writers play an invaluable role in invoking and commenting upon the various uses of the histories of colonial resistance, allowing themselves and their readers to imagine new futures by exorcising the past. *Decolonizing Cultures in the Pacific* is a valuable addition to the fields of Pacific and Postcolonial Studies and also contributes to struggles for cultural decolonization in Oceania: contemporary writers' critical engagement with colonialism and indigenous culture, Najita argues, provides a powerful tool for navigating a decolonized future.

[Marine Fishery Resources of the Pacific Islands](#) Sep 03 2020 This type of fishing can be divided into three categories: (1) small-scale commercial fishing (also referred to as "artisanal"), which can be further broadly subdivided into those operations supplying domestic markets and those operations producing export commodities; (2) subsistence fisheries, which support rural economies and are extremely important to the region's nutrition and food security; and (3) the industrial-scale shrimp fisheries, which in the region only occur in Papua New Guinea. The region's fishery resources can be broadly split into two main categories: oceanic (offshore) and coastal (inshore). Oceanic or offshore resources include tunas, billfish and allied species. They are characterized by an open-water pelagic habitat and potentially extensive individual movements. Coastal or inshore resources include a wide range of finfish and invertebrates.

**The History of the Pacific Islands** Mar 29 2020 This is a survey of human history in the Pacific islands, from the beginnings of recorded time until the present day. To tell the story of humankind across the great expanse of the Pacific is a daunting task. This book considers how indigenous societies came to be established and the tales that native people told of that history. It goes on to describe their attempts to incorporate and then come to terms with Western influence. This book is designed to be of interest to undergraduate students of history and anthropology.

**Globalisation and Governance in the Pacific Islands** Oct 28 2022 "The Pacific Islands are feeling the effects of globalisation. Free trade in sugar and garments is threatening two of Fiji's key industries. At the same time other opportunities are emerging. Labour migration is growing in importance, and Pacific governments are calling for more access to Australia's labour market. Fiji has joined Samoa, Tonga, Tuvalu and Kiribati as a remittance economy, with thousands of its citizens working overseas. Meantime, Papua New Guinea and Solomon Islands grapple with an older kind of globalisation in which overseas companies exploit mineral and forest resources. The Pacific Islands confront unique problems of governance in this era of globalisation. The modern, democratic state often fits awkwardly with traditional ways of doing politics in that part of the world. Just as often, politicians in the Pacific exploit tradition or invent it to serve modern political purposes. The contributors to this volume examine Pacific globalisation and governance from a wide range of perspectives. They come from Papua New Guinea, Solomon Islands, Hawai'i, the Federated States of Micronesia, Samoa, Fiji, New Zealand and Jamaica as well as Australia."--Publisher's description.

**The Pacific** Apr 29 2020 The official companion book to the HBO® miniseries available on DVD and Blu-Ray. Hugh Ambrose's bestseller follows the struggles and triumphs of four US Marines and a US Navy carrier pilot fighting in the Pacific region during World War II. Built on hundreds of hours of testimony, as well as diaries, letters and memoirs, *The Pacific* tells the true stories of men who put their lives on the line for the Allied forces; men who were dispatched to the other side of the world to fight an enemy who preferred suicide to surrender; men who suffered hardship and humiliation in POW camps; men who witnessed casualties among soldiers and civilians alike; and men whose medals came at a shocking price—a price paid in full. *The Pacific* is an HBO® miniseries presentation, in association with Sky Movies, of a Playtone and Dreamworks Production executive produced by Tom Hanks, Steven Spielberg and Gary Goetzman, the producing team behind the Emmy® Award-winning and Golden Globe®-winning 2001 HBO® miniseries *Band of Brothers*. The epic ten-part miniseries tracks the intertwined journeys of three US Marines—Robert Leckie (James Badge Dale), Eugene Sledge (Joe Mazzello) and John Basilone (Jon Seda)—from their first battle with the Japanese on Guadalcanal, through the rainforests of Cape Gloucester and the strongholds of Pelelieu, across the bloody sands of Iwo Jima and Okinawa, and finally to their triumphant but uneasy return home after V-J Day.

[The Pacific War Uncensored](#) Feb 08 2021 A WWII reporter's dangerous adventures in Singapore, Malaya, Java, and more. Harold Guard became a war correspondent by chance after he'd been invalidated out of the navy following a submarine accident. Thereafter, working for United Press, he gained a front-row seat to many of the most dramatic battles and events of the century. In March 1942, Guard arrived in Australia, having narrowly escaped from Japanese forces invading Singapore and Java. His dispatches from that disastrous front prompted one observer to comment on "the crisis days when everybody except Harold Guard was trying to hush up the real situation." At the time, he was acclaimed by the Australian press as one of the top four newspapermen covering the war in the Pacific. Over the next three years, Guard was to have many

more adventures reporting on the Pacific War, including firsthand experience flying with the US Air Force on twenty-two bombing missions, camping with Allied forces in the deadly jungles of New Guinea, and taking part in attacks from amphibious landing craft on enemy occupied territory. He also traveled into the undeveloped areas of Australia's northern territories to report on the construction of air bases being built in preparation for defending the country against the advancing Japanese. What made Harold Guard's achievements even more remarkable was that he was disabled and had to walk with a stiff right leg due to his navy injury. Despite this, he often reported from perilous situations at the front line, which gained him considerable notoriety within the newspaper world. Guard endeavored to give honest accounts, and this often brought him into conflict with the military censors. In this book, the full story of Guard's experiences and observations during the Pacific War have been reconstructed with the help of his dispatches, private correspondence, telegrams, and audio accounts. No longer subject to censorship, the starkly honest perceptions of how the Allies nearly failed and, at last, finally won the war can now be told.

Vom alten Schlag Dec 30 2022 Eugene B. Sledge diente als Soldat im 3. Bataillon, 5. Kompanie der berühmten 1. US-Marineinfanteriedivision – der ältesten, ruhmreichsten und größten aktiven Division des US Marine Corps. Im Zweiten Weltkrieg wurde der 20-Jährige an die Front im Pazifik geschickt, wo er an den Gefechten der amerikanischen Armee gegen die Japaner um Peleliu und Okinawa teilnahm. In diesem Buch beschreibt Sledge auf klare und erschütternd nüchterne Weise die Erfahrungen eines Marines an der Front im Pazifik. Die Grausamkeit und Brutalität des Krieges sind darin ebenso festgehalten wie das Gefühl aufrichtiger Kameradschaft, schonungslose Schilderungen wüster Kämpfe sowie rührende Momentaufnahmen am Rande des Geschehens. Ein einzigartiges Dokument des Schreckens und ein weltbekannter Klassiker der Kriegsliteratur.

The Pacific War Companion Dec 18 2021 Published to commemorate the 60th anniversary of V-J Day, 'The Pacific War Companion' brings together the perspectives and insights of world-renowned military historians. From the Japanese attack on Pearl Harbor through the release of the atomic bombs on Hiroshima and Nagasaki, the conflict in the Pacific was characterised by amazing tactical innovations in amphibious warfare and horrific battles that raged in the unforgiving climate of the island jungles. Each chapter in this book focuses on a different aspect of this conflict, from the planning of operations to the experiences of the men who were there.

School nutrition education programmes in the Pacific Islands: Scoping review and capacity needs assessmentSep 15 2021 The School Nutrition Education Programme (SNEP) is an intervention to educate school students on nutrition and food preparation with the aim of influencing healthy nutrition choice and practice at an age when life time behaviour habits are developing and in the wider community. FAO defines School Food Nutrition Education as consisting of coherent educational strategies and learning activities, with environmental supports, which help schoolchildren and their communities to achieve sustainable improvements in their diets and in food- and lifestyle-related behaviours, perceptions, skills and knowledge; and to build the capacity to change, to adapt to external change and to act as agents of change. This publication is the scopy study and capacity needs assessment and final report for the SNEP project.

Empires On The Pacific Sep 27 2022 Empires on the Pacific smashes the standard narrative of World War II in the Pacific theater, showing America's aim to replace Britain as East Asia's New Imperial Power. Robert Smith Thompson offers a long overdue explanation of what America's war against Japan was really about--in a word: China. The over-reaching British Empire was waning yet unwilling to relinquish its foothold in China, while an increasingly ambitious Japan was determined to dominate the region by conquering China. Enter the young upstart, America. For Franklin Delano Roosevelt and for the United States, the war with Japan had little to do with revenge for Pearl Harbor. Japan would have to be vanquished so that it would never again be an imperial rival. Thompson's recasting of the Asian conflict profoundly alters our understanding of World War II in the Pacific and of what followed in Korea and in Vietnam. Revisionist history at its best, Empires on the Pacific is a far-reaching book that requires us to re-evaluate what we thought we knew about twentieth-century American history and what many still consider our last "good war."
