*Boots of Leather, Slippers of Gold* traces the evolution of the lesbian community in Buffalo, New York from the mid-1930s up to the early 1960s. Drawing upon the oral histories of 45 women, it is the first comprehensive history of a working-class lesbian community. These poignant and complex stories show how black and white working-class lesbians, although living under oppressive circumstances, nevertheless became powerful agents of historical change. Kennedy and Davis provide a unique insider's perspective on butch-fem culture and argue that the roots of gay and lesbian liberation are found specifically in the determined resistance of working-class lesbians. This 20th anniversary edition republishes the book for a new generation of readers. It includes a new preface in which the authors reflect on where the last 20 years have taken them. For

anyone interested in lesbian life during the 1940s and 1950s, or in the dynamics of butch-fem culture, this study remains the one that set the highest standard for all oral histories and ethnographies of lesbian communities anywhere. Alexander Weiser entwickelt ein idealtypisches, mehrstufiges Prozessmodell für das Public Affairs Management, das den Rahmen für eine empirische Untersuchung in Japan bildet. Die Analyse deutscher, US-amerikanischer und japanischer Unternehmen aus der Chemie- und Pharmabranche zeigt u.a., dass die Hauptprozesse kulturungebunden, die Anwendung technokratischer Koordinationsinstrumente und Fragen der Spezialisierung hingegen kulturgebunden sind. The Routledge Dictionary of Modern American Slang and Unconventional English offers the ultimate record of modern American Slang. The 25,000 entries are accompanied by citations that authenticate the words as well as offer lively

examples of usage from popular literature, newspapers, magazines, movies, television shows, musical lyrics, and Internet user groups. Etymology, cultural context, country of origin and the date the word was first used are also provided. This informative, entertaining and sometimes shocking dictionary is an unbeatable resource for all language aficionados out there. If an innocent person is sent to prison or if a killer walks free, we are outraged. The legal system assures us, and we expect and demand, that it will seek to "do justice" in criminal cases. So why, for some cases, does the criminal law deliberately and routinely sacrifice justice? In this unflinching look at American criminal law, Paul Robinson and Michael Cahill demonstrate that cases with unjust outcomes are not always irregular or unpredictable. Rather, the criminal law sometimes chooses not to give defendants what they deserve: that is, unsatisfying results occur even when the system

works as it is designed to work. The authors find that while some justice-sacrificing doctrines serve their intended purpose, many others do not, or could be replaced by other, better rules that would serve the purpose without abandoning a just result. With a panoramic view of the overlapping and often competing goals that our legal institutions must balance on a daily basis, Law without Justice challenges us to restore justice to the criminal justice system. Federal administrative law is a vast expanse of statutory provisions and case law. This text aims to map these provisions, setting out the case and statute law in a structured and amenable way. Federal Administrative Law commences with discussion of the composition, powers and decision-making processes of the executive government. Then it covers the major remedies available for those who are dissatisfied by a decision of the executive government - reasons for decision, access to information

under FOI legislation, judicial review, appeal to the Administrative Appeals Tribunal, review by the Ombudsman, remaking a decision, collateral review and special review. Enright also engages with the perennial conceptual problems of administrative law. Difficulties with separating legislative, executive and judicial power, and in distinguishing between law and fact, are considered insoluble, Enright argues, only because they have not been approached in the right way. Enright argues for going back to basics, emphasising the necessity of asking the right question in the first place. In a similar vein, Enright investigates problems with legitimate expectation in the law of natural justice and argues that difficulties with standing can be treated better by taking a more analytical approach to the interests involved. Federal Administrative Law will serve as a basic text and reference book for those who work in Commonwealth administrative

law. It is written in a clear and easy to read style that will make it suitable as a textbook in undergraduate courses. This book of critical rural geography breaks new ground by drawing attention to sex and sexualities outside the metropolis. It explores sexualities and sexual experiences in a variety of rural and marginal spaces with international contributions from a wide range of disciplines. These include: literary and cultural studies, lesbian and gay studies, geography, history and law. Among the topics uncovered are: \* a lesbian in rural England \* sexual life in rural Wales \* sexuality in rural South Africa \* scandal in the American South: sex, race and politics \* nature and homosexuality in literature \* Derry/Londonderry as a sexual space \* how 'country folk' are sexualised in popular culture. Although the concepts and patterns of ritual varied through time in relation to general sociopolitical transformations and local historical circumstances in

ancient Mesoamerica, most archaeologists would agree that certain underlying themes and structures modeled the ritual phenomena of this complex culture area. By focusing on ritual expression at the household level, this volume seeks to compare the manifestations of domestic ritual across time and space in both the cores and peripheries, in the cities and in the villages. The authors explore the ways in which cosmological principles and concepts of the sacred were used in the construction of ritual space and practice, how local landscapes provided templates for the images and paraphernalia recovered from archaeological contexts, how foreign enclaves relied on ritual for social reproduction, and how domestic ritual was related to, and indeed embedded in, institutionalized state religions. *Creating a Place For Ourselves* is a groundbreaking collection of essays that examines gay life in the United States before Stonewall and the gay liberation movement. Along

with examining areas with large gay communities such as New York, San Francisco and Fire Island, the contributors also consider the thriving gay populations in cities like Detroit, Buffalo, Washington, D.C., Birmingham and Flint, demonstrating that gay communities are truly everywhere. Contributors: Brett Beemyn, Nan Alamilla Boyd, George Chauncey, Madeline Davis, Allen Drexel, John Howard, David Johnson, Liz Kennedy, Joan Nestle, Esther Newton, Tim Retzliff, Marc Stein, Roey Thorpe. Concise yet comprehensive, this one-volume reference examines the history of terrorism in the modern world, including its origins and development, and terrorist acts by groups and individuals from the French Revolution to today. Organized thematically and regionally, it outlines major developments in conflicts that involved terrorism, the history of terrorist groups, key aspects of counterterrorist policy, and specific terrorist incidents. Initial chapters

explore terrorism as a social force, and analyze the use of terrorism as a political tool, both historically and in the contemporary world.

Subsequent chapters focus on different parts of the world and consider terrorism as a part of larger disputes. Each chapter begins with a historical introduction and analysis of the topic or region, followed by one or more chronologies that trace events within political and social contexts. A glossary, selected bibliography, and detailed index are also included. For abstracts see: Caribbean Abstracts, no. 11, 1999-2000 (2001); p. 111.

James Joyce's astonishing final text, *Finnegans Wake* (1939), is universally acknowledged to be entirely untranslatable. And yet, no fewer than fifteen complete renderings of the 628-page text exist to date, in twelve different languages altogether - and at least ten further complete renderings have been announced as underway for publication in the early 2020s, in nine different languages. *Finnegans Wakes*

delineates, for the first time in any language, the international history of these renderings and discusses the multiple issues faced by translators. The book also comments on partial and fragmentary renderings from some thirty languages altogether, including such perhaps unexpected languages as Galician, Guarani, Chinese, Korean, Turkish, and Irish, not to mention Latin and Ancient Egyptian. Excerpts from individual renderings are analysed in detail, together with brief biographical notes on numerous individual translators. *Chronicling renderings* spanning multiple decades, *Finnegans Wakes* illustrates the capacity of Joyce's final text to generate an inexhaustible multiplicity of possible meanings among the ever-increasing number of its impossible translations. Vols. for 1933-1936 include "The Law journal supplement to the New Zealand law reports." This book provides an in-depth exploration and analysis of marriages between Japanese nationals and migrants from

three broad ethnic/cultural groups - spouses from the former Soviet Union countries, the Philippines, and Western countries. It reveals how the marriage migrants navigate the intricacies and trajectories of their marriages with Japanese people while living in Japan. Seen from the lens of 'gendered geographies of power', the book explores how state-level politics and policies towards marriage, migration, and gender affect the personal power politics in operation within the relationships of these international couples. Overall, the book discusses how ethnic identity intersects with gender in the negotiation of spaces and power relations between and amongst couples; and the role states and structural inequalities play in these processes, resulting in a reconfiguration of our notions of what international marriages are and how powerful gender and the state are in understanding the power relations in these unions. Provides information on the most influential English-

language writers of the crime and mystery genre. Each entry includes author biographies; complete bibliographies; lists of critical studies; locations of manuscripts; the writer's own comments on his or her work, when available; and an essay written by an expert of the genre. Containing over 6,000 entries from Aalto to Zwinger and written in a clear and concise style, this authoritative dictionary covers architectural history in detail, from ancient times to the present day. It also includes concise biographies of hundreds of architects from history (excluding living persons), from Sir Francis Bacon and Imhotep to Liang Ssu-ch'eng and Francis Inigo Thomas. The text is complemented by over 260 beautiful and meticulous line drawings, labelled cross-sections, and diagrams. These include precise drawings of typical building features, making it easy for readers to identify particular period styles. This third edition of The Oxford Dictionary of Architecture has been

extensively revised and expanded, with over 900 new entries including hundreds of definitions of garden and landscape terms such as Baroque garden, floral clock, hortus conclusus, and Zen garden-design. Each entry is followed by a mini-bibliography, with suggestions for further reading. The full bibliography to the first edition (previously only available online) has also been fully updated and expanded, and incorporated into this new edition. This is an essential work of reference for anyone with an interest in architectural and garden history. With clear descriptions providing in-depth analysis, it is invaluable for students, professional architects, art historians, and anyone interested in architecture and garden design, and provides a fascinating wealth of information for the general reader. Visionär und rasend schnell erzählt: Das zentrale Werk des Cyberpunks jetzt in neuer Übersetzung. Hiro Protagonist war mal

Programmierer, aber seit auch hier die Konzerne alles gleichgeschaltet haben, zieht er jeden Bullshit-Job vor: Pizza-Auslieferer für die Mafia. Oder Information Broker für die ehemalige CIA. Wichtiger als die echte Welt ist für ihn ohnehin das Metaverse, ein virtueller Ort, an dem sich die Menschen mit ihren selbst gestalteten Avataren treffen. Dort begegnet er auch zum ersten Mal der Droge »Snow Crash«. Das Besondere: Snow Crash ist ein Computervirus, der auch Menschen befallen kann. Zusammen mit seiner Partnerin Y. T. ermittelt Hiro – und kommt einer Verschwörung auf die Spur, die bis in die menschliche Vorgeschichte zurückreicht. Für Leser\*innen von William Gibson, Richard Morgan und Fans von Cyberpunk 2077. The authors look at how divorce lawyers work to address the question of legal professionalism in practice. Through a systematic study of legal practice at the micro-level, they show how lawyers create their own controls over

work through their social relationships, formal and informal norms, common knowledge, and shared values. While much of the research on legal professionalism centers on the formal standards of the bar as reflected in codes of professional responsibility, the authors show how the discretionary judgments that lawyers make, and the choices they face, are actually understood in relation to norms and standards of other lawyers with whom they interact or compare themselves. By January 2015 the world's richest 80 people had as much wealth as the poorest 50 per cent of the world's population. It is a global unevenness through which the barriers to in-migration of Third World migrants to wealthy First World nations go ever higher, while the barriers to travel in the reverse direction are all but extinct. So how exactly does tourism contribute to narrowing this glaring inequality between the rich and poor? Are ever-expanding tourism markets a smoke-free,

socioculturally sensitive form of human industrialisation? Is alternative tourism really a credible lever for reducing global inequality and eliminating poverty? Tourism and Sustainability critically explores the most significant universal geopolitical norms of the last half century - development, globalisation and sustainability - and through the lens of new forms of tourism demonstrates how we can better get to grips with the rapidly changing new global order. The fourth edition has been extensively revised and updated, and benefits from the addition of new material on climate change and tourism. Drawing on a range of examples from across the Third World, Mowforth and Munt expertly illustrate the social, economic and environmental conditions that continue to affect the tourism industry. With the first edition hailed by Geoffrey Wall as 'one of the most significant books produced on tourism [since the turn of the millennium]', Tourism and Sustainability

remains the essential resource for students of human geography, environmental sciences and studies, politics, development studies, anthropology and business studies as well as tourism itself. The definitive collection of first-hand accounts of the world's outlaw motorcycle gangs, with contributions by Sonny Barger, Hunter S. Thompson, Ed Winterhalder, William Queen and many more Outlaw bikers consider themselves 'the last free people in society', unconstrained by the regulations that hem in ordinary citizens. And they guard their privacy jealously. Drawing on seventeen years of studying and participating in biker culture, the author has compiled this one-of-a-kind collection of original biker writing. Here are insider accounts of landmark incidents in biker folklore, including reprints of classic writing from biker-originated magazines, handouts, websites and books. Gangs featured include the Bandidos, the Hells Angels, Henchmen MC, the Outlaws,

the Mongols, the Annihilators, the Diablos, the Gypsy Jokers, the Rebels, the Straight Satans and the Vagos. And with contributors such as Freewheelin' Frank (one-time secretary of the Hells Angels), Edward Winterhalder (among the most powerful members of the Bandidos) and Sonny Barger (founder of the Hells Angels). Also included are those rare accounts by outsiders who have succeeded in 'looking in' on the gangs: Hunter S. Thompson's Hells Angels: A Strange and Terrible Modern Saga; writing by William Queen, the undercover agent who infiltrated America's violent outlaw motorcycle gang the Mongols; and Daniel R. Wolf's account of riding with the Rebels. Warum wir ticken, wie wir ticken Der Sachbuch-Bestseller des Verhaltens-Psychologen Dan Ariely erklärt, wie wir Entscheidungen treffen: mit der Logik der Unvernunft Kennen Sie das auch? Beim Anblick eines köstlichen Desserts fallen uns spontan tausend vernünftige Gründe ein, unser Diät-Gelübde

zu brechen. Wir sind fest davon überzeugt, dass teure Produkte besser wirken als billige. Und für jeden von uns gibt es etwas, für das wir bereit sind, deutlich mehr Geld auszugeben, als wir haben - aus ganz vernünftigen Gründen, versteht sich.

Bestseller-Autor Dan Ariely stellt unser Verhalten auf den Prüfstand, um herauszufinden, warum wir immer wieder unvernünftig handeln - und dabei felsenfest überzeugt sind, uns von Vernunft leiten zu lassen. Denn wenn wir Entscheidungen treffen, gehen wir davon aus, dass wir das Für und Wider vernünftig abwägen. In Wahrheit werden unsere Entscheidungen jedoch meist von vorgefassten Urteilen und einer gelernten Weltsicht beeinflusst. Unvernünftige Entscheidungen liegen offenbar in der menschlichen Natur begründet. Ebenso unterhaltsam wie spannend zeigt der renommierte amerikanische Verhaltens-Psychologe Dan Ariely in seinem Bestseller, wie die meisten unserer Entscheidungen tatsächlich

zustande kommen, und wie unvernünftig unsere Vernunft oft ist. »Ein ebenso amüsanter wie lehrreiches Buch.« Der Spiegel
